# SAS® Services for Hadoop

Everything you need for SAS® Analytics in Hadoop

Create Your Success Story With SAS® Services for Hadoop

SAS® software installation and configuration

Hadoop integration for Cloudera or Hortonworks

Best practices for your organization

Training to drive software adoption

Your analytics in Hadoop success story

Whether you're just getting started with Hadoop or need to connect SAS software to your Hadoop environment, our comprehensive service has everything you need.

Working with Cloudera and Hortonworks – the leading commercial providers of Apache Hadoop – we've built a comprehensive service offering that combines SAS software with Cloudera Enterprise or Hortonworks Data Platform.

Tailored just for you, this offering may include:

- **Analytics and Hadoop strategy development**
  Help defining your SAS analytics strategy for Hadoop and use case development.

- **Design and planning**
  Architecture design and pre-installation planning.

- **Data management**
  Data preparation for analysis and reporting in SAS.

- **Software installation and configuration**
  SAS Visual Analytics, SAS Visual Statistics, SAS In-Memory Statistics, SAS Data Loader, SAS/ACCESS® Interface to Hadoop and SAS/ACCESS Interface to Impala, or SAS High-Performance Analytics products.

- **Hadoop integration**
  Cloudera Enterprise or Hortonworks Data Platform.

- **Training**
  Instructor-led training delivered on-site.

- **Best practices**
  Customized for your use cases on topics from high performance and high availability to model development.

- **Follow-up site evaluation**
  Detailed analysis of your organization's business needs, user activities and knowledge transfer.

About SAS
SAS is the leader in business analytics software and services, and the largest independent vendor in the business intelligence market. Through innovative solutions, SAS helps customers at more than 75,000 sites improve performance and deliver value by making better decisions faster. Since 1976 SAS has been giving customers around the world THE POWER TO KNOW®.

About Cloudera
Cloudera is revolutionizing enterprise data management with the first unified platform for big data, an enterprise data hub built on Apache Hadop®. Cloudera offers enterprises one place to store, process and analyze all their data, empowering them to extend the value of existing investments while enabling fundamental new ways to derive value from their data. SAS and Cloudera have a unique partnership to provide a single offering that includes SAS and Cloudera support, training and professional services.

About Hortonworks
Hortonworks® is the leading contributor to and provider of Apache Hadoop for the enterprise, and our mission is to establish Hadoop as the foundational technology of the modern enterprise data architecture. Our solution, the Hortonworks Data Platform (HDP), is an enterprise-grade data management platform that enables a centralized architecture for running batch, interactive and real-time applications simultaneously across a shared dataset.
