What is SAS® Visual Analytics for SAS® Cloud?

It is a software-as-a-service (SaaS) offering that provides self-service access to all of the power and capabilities of SAS Visual Analytics, delivered through SAS Cloud. Interactive data exploration, visualization and reporting are combined with easy-to-use analytics so everyone can get timely insights. No hardware, no software downloads and no installations required!

Why is SAS® Visual Analytics for SAS® Cloud important?

You can subscribe and begin using SAS Visual Analytics quickly. It’s an easy-to-use, self-service environment that puts precise insights within everyone’s reach so they can make well-informed decisions. Users of all skill levels can visually explore data on their own while tapping into powerful in-memory technologies for faster analytic computations and discoveries.

For whom is SAS® Visual Analytics for SAS® Cloud designed?

It’s designed for individuals or teams who want to use and derive insights from data – from influencers, decision makers and analysts to statisticians and citizen data scientists. Subscribing to SAS Visual Analytics for SAS Cloud frees IT from having to implement and provide ongoing maintenance for this software solution.

SAS® Visual Analytics for SAS® Cloud

Discover, explore and analyze your data. And share insights immediately.

Start Seeing the Value of Your Data – Right Now From Any Place

SAS Visual Analytics for SAS Cloud is available in a SaaS or hosted private cloud delivered through SAS Cloud. The cloud architecture provides rapid deployment and that means fast access so you can explore data and find answers more quickly and easily than ever before.

And you can start small and grow incrementally based on your needs. With SAS Visual Analytics for SAS Cloud, you can expand self-service data discovery, reporting and analytics to more users and customers – anytime, anywhere – without the time and resources required to support an on-site implementation.

Why should you choose SAS Visual Analytics for SAS Cloud?

• It’s affordable and easy to set up. Get the best combination of data discovery, business intelligence and analytics when you need it.

• You can stay agile and focus on analytics. Leave the management and administration of technology and hardware to us.

• Get faster time to value and eliminate the wait. Analyze your data for all it’s worth and see opportunities from every angle – whenever you want to.

• It’s safe and secure. Feel confident knowing your data and content are secured.
SAS® Visual Analytics for SAS® Cloud: Frequently Asked Questions

Can I sign up for free trial of SAS® Visual Analytics for SAS® Cloud?
Yes. Sign up for a free, 14-day trial of SAS Visual Analytics to see how it can work for you. During the 14-day trial, you can choose to convert your trial to a paid environment by subscribing through the SAS Store to make SAS Visual Analytics for SAS Cloud a key part of your decision-making process.

Who can use SAS® Visual Analytics for SAS® Cloud?
The SAS Visual Analytics for SAS Cloud SaaS option is designed for organizations of different sizes. It’s available in small, medium and large configurations based on the number of users and the size of the data. (See Table 1.)

Once users have created interactive reports, charts and data explorations, the results can be shared with named users via our tablet and smartphone app, SAS Mobile BI.

SAS Visual Analytics for SAS Cloud includes configuration and initial data staging services. And you get world-class tech support, documentation and training videos – all in one affordable offering.

How can I deploy SAS® Visual Analytics in the cloud?
There are several cloud deployment options for SAS Visual Analytics. Whether you prefer to deploy in your private cloud, in a public cloud or the SAS Cloud, we have a deployment to fit your business needs.

Do I have access to all features of SAS® Visual Analytics when deployed in the SAS® Cloud?
Yes. SAS Visual Analytics for SAS Cloud provides full access to the capabilities provided in the on-site version. Using SAS Cloud provides a lower total cost of ownership by including infrastructure in the SaaS price, eliminating setup time and the need for IT support.

Does SAS® Visual Analytics for SAS® Cloud include a dedicated cloud environment for my organization?
Yes. Your data is an important asset, and security is a priority for SAS Cloud services. With SAS Visual Analytics for SAS Cloud, you get a secure environment that is dedicated to your users and your organization.
