VirusTotal Scan Report

Sorry if this TuT sucks. Its my first tutorial that I made on here.

EDIT
This is a safe program, if need be I will go on team viewer with you and sho
This can even be run in SandBoxie if you think its RATTED or something.

[NEW] SMS Bomber International V4.2! (By InuyashaITB) — Thread Options

Ok guys... its been a while since i have posted an update for my program SMS Bomber International and this will actually be my LAST THREAD about it because of my newest updated feature!

The one feature added:
AUTO FUKIN UPDATE!!!!

so now i can give updates without having to post new threads here!

TheSkypeCrew know who we are ;D

i made us this pretty decent SMS spammer (also works with regular emails)

requirements: .net 3.5

features:
on / off spam
email in a thread
total count of emails sent
custom Smtp (defailt to gmail)
links for help
help page

>>> download here <<<
