

# The Magic of F12

By Charlotte King

Are you tired of always  
having to clear your log  
window?

Are you frustrated with  
deciphering between  
multiple iterations of  
output?

F12 is the solution to  
all your problems.

# The Steps

- Press F9 at the top of your keyboard
- A “keys” window will open
- On the F12 line enter:
  - `out;clear;log;clear;wpgm;zoom on;submit; out; top;`
- Close window
- Use to submit programs in interactive mode
