**5:15pm Building Web Applications in the Information Delivery Portal with Stored Processes**

Euan Kennedy, Founder & Senior Consultant  
Mojo Soup

*Bio - Euan is a SAS user of 7 years, who has strong expertise in data analysis, data management, business intelligence, strategic planning, and performance measurement. He has a background leading technical solution development projects aimed at realising business process improvement within Federal and State government, coupled with specialised application development contracts in the government and retail sectors.*

*Abstract - The Information Delivery Portal presents SAS developers with the opportunity to do much more than just serve up static content - why not leverage the power of SAS stored processes to provide a richer, more interactive experience that is tailored to the user? This presentation will provide an overview of some suggested tactics, technologies and tips to build web applications, and take your portlets to the next level.*

**5:45pm Break**
