

ODS – An Update

Abstract

This is an attempt to provide an update on where to find information on facilities and usage plus sources of inspiration for using the Output Delivery System. It is a short, relatively non technical presentation which will cover:-

- Write-ups on some of the new facilities available from ODS
- sources of information to further your understanding of ODS

SMUG March 2008
Steven Dunn - MPP Pty Ltd

Presentation Plan

- Brief Background
- ODS – What is it
- ODS – What is new
- Information Sources

SMUG March 2008
Steven Dunn - MPP Pty Ltd

ODS – What is it

- Not just a CSV engine
- Understand where it interacts with the other SAS components
- Play with it before you need it

SMUG March 2008
Steven Dunn - MPP Pty Ltd

ODS – What is new?

- ODS MARKUP
- XML LIBNAME Engine
- Using ODS to Publish Packages
- New ODS Printer
- Viewing Current Style Settings

SMUG March 2008
Steven Dunn - MPP Pty Ltd

Information Sources

- WEB
- WIKI
- Manuals (with web links where possible)
- Books (with web links where possible)
- Papers (with web links where possible)
- Code Samples
