

SAS® PARTNER ACADEMY

■ Key Benefits

- **Role-Based Sessions:** Your consultants only need to attend events directly related to their work.
- **Case-Study Driven:** Our events make use of worked, real-life scenarios.
- **Facilitated By Experts:** Our expert educators and consultants are recognised thought-leaders in their field.

If you are a SAS partner organisation then the SAS® Partner Academy will enable you to maximise your ability to deliver high value projects and programmes efficiently and effectively.

This is achieved by establishing a unique network for your consultants to stimulate thinking, exchange ideas on how to best implement the SAS® Business Analytics Framework and other SAS solutions and acquire industry recognised qualifications.

Service description

The SAS Partner Academy programme is role-based and divided into work streams dealing with the SAS Business Analytics Framework and SAS® solutions.

The Academy uses a series of practical, real life case studies that groups of consultants can explore and solve. These case studies are augmented by formal training detailing the technical and functional knowledge needed to install, configure, test and deploy our software as part of an overall client solution.

Service activities

Each work stream features a series of events covering the full life cycle of a SAS implementation project. Each Partner Academy workshop is role-based, case-study driven and facilitated by subject matter experts.

Your consultants will also have the opportunity to meet like-minded individuals and build a network through the dedicated Partner Academy group on the SAS Professionals social networking site:

www.sasprofessionals.net

Service deliverables

Each SAS Partner Academy event provides:

- An experienced consultant
- A set of printed course notes
- Access to a package of post-course support
- Use of appropriate software and hardware
- Refreshments and lunch.

**THE
POWER
TO KNOW®**

Duration

SAS Partner Academy events vary in duration between one and three days.

Estimated price

Please contact one of our SAS Education Business Development Managers on 0845 402 9902 or email education@suk.sas.com for more information on pricing.

The SAS Advantage

We understand and can apply SAS technology better than anyone else. Our development expertise spans three decades, and our experience with customers around the world is unrivalled. You can rest assured that with every engagement, our methodologies and best practices will deliver tangible results for your organisation.

Now, with the SAS Partner Academy, your consultants can deliver high value implementations more efficiently and effectively.
