

SAS® Enterprise GRC Migration Service

What are the key benefits of the SAS® Enterprise GRC Migration Service?

Enhanced business value by taking advantage of the most current functionalities and best practices from the latest release of the solution.

Optimized usage of the solution through recommendation and guidelines provided by SAS experts.

Minimized risk, cost and timescales for migrating to the latest release of the solution by following a structured approach executed by SAS experts.

What is the SAS® Enterprise GRC Migration Service?

SAS Enterprise GRC offers an integrated platform to facilitate and enhance collaboration among risk management, compliance, internal audit and strategy management groups. The latest release of the solution incorporates best practices and feedback from customers around the world. To enable customers to take advantage of all the latest release has to offer, SAS has developed a rapid, structured approach to facilitate migration to the newest release – the SAS Enterprise GRC Migration Service.

How does the SAS® Enterprise GRC Migration Service work?

The SAS Enterprise GRC Migration Service includes the following phases:

1. **Awareness Workshop.** In this one-day workshop, SAS experts will highlight the key new capabilities available in the latest release of the solution. This will enable your organization to assess the business benefits of migrating.
2. **Migration Assessment.** During this two-week assessment, SAS experts will:
 - Audit the current usage and configuration of the solution.
 - Identify the key business benefits desired from migration.
 - Provide detailed recommendations and project schedule for performing the migration.
 - Provide guidelines for maximizing the business benefits from the solution, including optimizing configuration, enhancing quality of data, optimizing performance, etc.

3. **Migration Project.** This will cover migration activities, where SAS experts will:

- Install the new release of the solution.
- Migrate the configuration and data to the new release.
- Perform testing to provide assurance that all key elements have been migrated successfully.
- Conduct workshops on how to benefit from key functionalities in the new release.
- Provide recommendations on how to derive additional business benefits from the solution beyond the current usage areas.

How do I find out more or arrange for a SAS® Enterprise GRC Migration Service?

Your SAS account executive can connect you with our migration experts. We can help you determine whether SAS Enterprise GRC Migration Service is the right step for your organization.
