About This Book	vii
About The Authors.....	ix
Acknowledgments	xi
Chapter 1 Strategic Foundations for Segmentation and Lifetime Value Models....	1
1.1 Introduction	1
1.2 A process for increasing CLV	3
1.3 A taxonomy of CLV models	7
Chapter 2 Segmentation Models.....	9
2.1 Introduction to segmentation models	10
2.2 <i>K</i> -means clustering	14
2.3 A process for building segmentations	27
2.4 The finite mixture model	38
2.5 Chapter summary	49
Chapter 3 The Simple Retention Model	51
3.1 The customer annuity model.....	52
3.2 The simple retention model	53
3.3 Estimating retention rates	59
3.4 Per-period cash flows <i>m</i>	62
3.5 Chapter summary	66
Chapter 4 The General Retention Model.....	67
4.1 The general retention model	67
4.2 Introduction to survival analysis	72
4.3 Product-moment estimates of retention rates	73
4.4 The discrete-time survival model	82
4.5 Application: trigger events	94
4.6 The beta-geometric model	98
4.7 Chapter summary	104
Chapter 5 The Migration Model	107
5.1 Migration models: spreadsheet approach	108
5.2 Migration model: matrix approach	112
5.3 Estimating transition probabilities	116
5.4 Chapter summary	126
Chapter 6 Data-Mining Approaches to Lifetime Value	129
6.1 The data-mining approach to predicting future behaviors	129
6.2 Regression models for highly skewed data	134
6.3 Evaluating data-mining models	144
6.4 Accounting for the long-term effects of a marketing contact	155
6.5 Chapter summary	157
