

SAS Career Day with Novo Nordisk

*Are you interested in learning how statistical programming is used at one of the largest pharmaceutical companies in the world? And are you familiar with SAS software? Then join us for a SAS career day with Novo Nordisk at SAS Institute on **3 May 2017 from 8-12.00.***

Everyday, statistical programmers at Novo Nordisk work with turning complex data into clearly organized reports that provide insights and recommendations for their scientist. This work includes developing SAS programs for preparing and reporting clinical data for statistical analysis and working closely with biostatisticians and other statistical programmers in cross-disciplinary teams to generate new insights.

At SAS Career Day with Novo Nordisk you will:

- Get a unique chance to hear from and network with professionals working with SAS programming in one of the leading pharmaceutical companies in the world.
- Get an introduction to the Novo Nordisk Company and their way of working
- Get advice on how to structure your CV and application
- Get the chance to ask questions to a panel of Novo Nordisk professionals.

Students at any stage of their education are encouraged to join.

We have limited seating so **register now** by sending an email to: signe.dyrby@sas.com with your name and line of study.

Registration will close on **Wednesday 26 April at noon.**

The program:

- 8.00 - 8.15: Registration and Coffee
- 8.15 - 8.20: Welcome by SAS Institute
- 8.20 - 9.10: Introduction to Novo Nordisk: Company, Culture and Career
- 9.10 - 10.00: CV workshop by Novo Nordisk
- 10.00 - 10.15: Break
- 10.15 - 11.15: Panel discussion by Novo Nordisk Professionals
- 11.15 - 12.00: Networking and refreshments

Location: SAS Institute, Købmagergade 9, 1150 København K
