

# Arts and Crafts: Paper Mosaic

A mosaic is a picture or pattern made by using small pieces of tile, stone, or glass. For this art activity, we are going to use paper to make our mosaics.

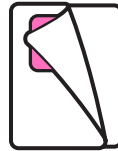

## What you'll need:

Different colored paper (tissue or construction paper)

Glue stick

White piece of paper (OR coloring book page or print out)

Pencil

## Instructions

1

With a pencil, draw a picture or pattern on a white sheet of paper. You can also print out a coloring page or use one from a coloring book you have.

2

Tear your colored paper into small pieces.

3

Using your glue stick, glue the small pieces to your drawing. Continue gluing until your picture is filled with the paper pieces. You have created a beautiful mosaic!

4

Hang it on the refrigerator or in a window to show off your artwork!
