SAS Reach Program

To ensure that high school students feel prepared to put their best professional foot forward when applying to college and employment opportunities, this program is designed to **demystify the field of STEM** and expose students to the **limitless opportunities within the tech industry**.

When is SAS Reach?

This 5-week program runs July 2 - August 1. Participants are required to be at SAS HQ (Cary, NC) Tuesday, Wednesday and Thursday. Students in the program will receive a stipend once accepted into the program.

Program Criteria:

- Student is a rising senior in high school.
- Student has interest in pursuing additional education in a tech-related field (Data Science, Computer Science).
- Student is a potential first-generation college student.
- Student has a need for support and resources to pursue secondary education.
- Student has a reliable form of transportation and is available for the entirety of the program.

What to Expect:

- College and Career Readiness Sessions
- Technology-Related Panels
- Business Acumen Sessions
- Job Shadowing
- Peer Mentorship
- Lunch and Learns
- Data4Good Initiatives
- Cool Giveaways

[Applications](#) **will be open from April 26 - May 3.**
