

# ADDRESS YOUR STAFFING CHALLENGES WITH THE SAS EXPERT NETWORK

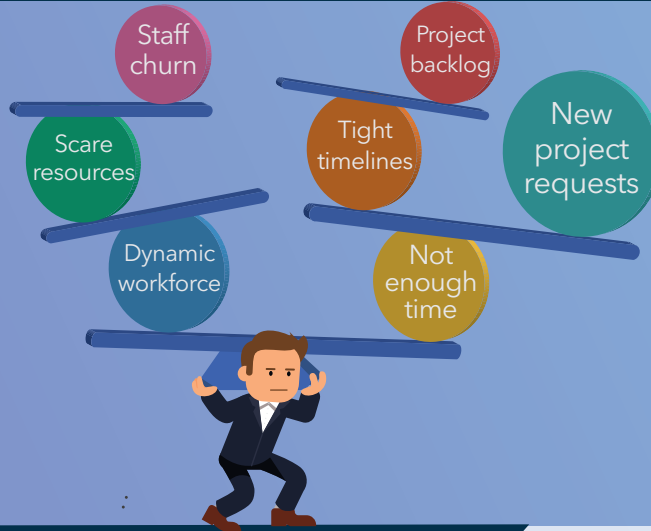

Take the stress out of saying yes

20% System Admin annual churn<sup>1</sup>

29% increase in data scientist demand<sup>2</sup>

50% workforce: freelance by 2027<sup>3</sup>

IT and analytics skills are in high demand. Staffing landscape is dynamic. Balancing limited resources with the needs of the business is an everyday challenge. Tap into the SAS Expert Network to take the stress out of saying yes to new projects and initiatives.

## You Have Resource Options

### Platform Administration

Offload SAS administration to highly skilled resources

### Staff Augmentation

Rapidly enhance your staff with experts who have the specific skillsets needed

### Contract to Hire

'Try before you buy' with a low-risk approach to get the skills required

### Ongoing Support

Quickly access resources as needed for tasks and projects

## Say Yes to Grow Your Business

Focus your staff on your core business

Drive operational efficiency

Gain a cost-effective competitive edge

Expand and adapt nimbly

## Tap into the SAS Expert Network

The SAS Expert Network is comprised of highly vetted IT and analytics experts with robust SAS skillsets including administration, migrations, programming, data science and more.

Let SAS deliver the resources you need cost-effectively and take these time-consuming activities off your plate:

- Identify and document your specific SAS staffing requirements.
- Match candidates from our SAS Expert Network who fit the job description.
- Screen and evaluate the technical skills of potential candidates.
- Monitor and support the consulting resources while under contract.

To learn how SAS can help you 'say yes', contact your SAS representative or **our contact center**.
