

THE REALITY OF POLICING

Police spend **85%** of time on community care*

* The New York Times. "How Do the Police Actually Spend Their Time?" by Jeff Asher and Ben Horwitz. June 19, 2020

Homelessness

Mental health

Addictions

EXPECTATIONS ARE HIGH

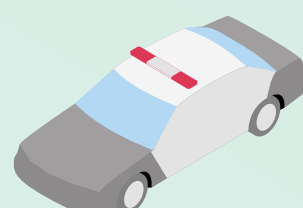

1 Policing reform

2 Modernization

3 Digital transformation

Delaware State Police solve crime in less time with analytics. See how they do it.

OBSTACLES TO SUCCESS

- **SILOS, DATA OVERLOAD**
Data is scattered, diverse, disjointed
- **MANUAL PROCESSES**
Duplicate work, multiple systems
- **TIGHT RESOURCES**
Limited work force, limited budgets

- **MEETING EXPECTATIONS**
Misunderstandings, common ground
- **BEING TRANSPARENT**
Difficulty sharing metrics

HOW SAS® ANALYTICS HELPS LAW ENFORCEMENT

FIND MORE

Access and analyze many types and sources of data.

DISRUPT MORE

Quickly ID vulnerable people and threats by spotting hidden connections in data.

PREVENT MORE

Improve tactical and strategic assessments, then set comprehensive, risk-based strategies based on situational awareness.

ENGAGE MORE

Share analytical results via dashboards to inform government leaders, community partners and citizens.

WINNING CAPABILITIES. MISSION FOCUSED.

CHOOSE THE APPS YOU NEED

- Data access, integration, enterprise search
- Continuous monitoring with dashboard views
- Risk-based alerting and reporting
- Embedded workflows and tasking

- Intelligence management
- Performance management
- Fusion center management
- Investigations management
