

# The Quality Imperative: SAS Institute's Commitment to Quality

A corporate statement of SAS' commitment to product quality,  
service quality, and customer satisfaction

## Appendix 8: SAS® Offerings and Products

The SAS Platform is an integrated system of software products that provide complete control over data access, management, analysis, and presentation. SAS solutions are compatible with the SAS Platform. There are other products distributed by SAS but not integrated into the product. For the most recent product list, see ([http://www.sas.com/en\\_us/software/all-products.html](http://www.sas.com/en_us/software/all-products.html)).

The SAS products, solutions, and other products that are distributed by SAS and subject to this document's publish date include the following (this list is subject to change over time):

Base SAS®	SAS/QC®
JMP®	SAS/SECURE®
JMP® Clinical	SAS/SESSION®
JMP® Genomics	SAS/SHARE®
JMP® Live	SAS/STAT®
JMP® Pro	SAS/TOOLKIT®
JMP® Student Edition	SAS® 360 Discover
SAS/ACCESS®	SAS® 360 Engage
SAS/AF®	SAS® 360 Plan
SAS/ASSIST®	SAS® Adaptive Learning and Intelligent Agent System
SAS/CONNECT®	SAS® Add-In for Microsoft Office
SAS/EIS®	SAS® Analytics for IoT
SAS/ETS®	SAS® Anti-Money Laundering
SAS/FSP®	SAS® AppDev Studio™
SAS/Genetics™	SAS® Asset and Liability Management for Banking
SAS/GIS®	SAS® Asset Performance Analytics
SAS/GRAPH®	SAS® Assortment Planning
SAS/IML®	SAS® Banking Analytics Architecture
SAS/IML® Studio	SAS® Bridge for Esri
SAS/IntrNet®	SAS® Business Intelligence Dashboard
SAS/OR®	SAS® Business Intelligence Portal and Portlets

SAS® Business Intelligence Report Services	SAS® Demand Signal Repository
SAS® Business Orchestration Services	SAS® Deployment Tester
SAS® Business Rules Manager	SAS® Detection and Investigation for Banking
SAS® Campaign Management	SAS® Detection and Investigation for Government
SAS® Capital Requirements for Market Risk	SAS® Detection and Investigation for Health Care
SAS® Clinical Standards Toolkit	SAS® Detection and Investigation for Insurance
SAS® Clinical Trial Data Transparency	SAS® Econometrics
SAS® Commodity Risk Analytics	SAS® Energy Forecasting
SAS® Continuous Monitoring for Procurement Integrity	SAS® Enterprise BI Server
SAS® Continuous Monitoring Framework	SAS® Enterprise Guide®
SAS® Cost and Profitability Management	SAS® Enterprise Miner™
SAS® Credit Assessment Manager	SAS® Enterprise Miner™ for Desktop
SAS® Credit Scoring	SAS® Environment Manager
SAS® Currency Transaction Reporting	SAS® Event Stream Manager
SAS® Customer Due Diligence	SAS® Event Stream Processing
SAS® Customer Intelligence 360	SAS® Event Stream Processing Studio
SAS® Data Governance	SAS® Expected Credit Loss
SAS® Data Integration Server	SAS® Factory Miner
SAS® Data Loader for Hadoop	SAS® Federation Server
SAS® Data Management	SAS® Field Quality Analytics
SAS® Data Preparation	SAS® Financial Crimes Monitor
SAS® Data Quality	SAS® Financial Management
SAS® Data Science Programming	SAS® Financial Planning
SAS® Data Surveyor for SAP	SAS® Firmwide Risk for Solvency II
SAS® Decision Manager	SAS® Forecast Analyst Workbench
SAS® Demand Planning	SAS® Forecast Server

SAS® Forecasting for Desktop	SAS® Machine Learning
SAS® Foundation Services	SAS® Markdown Optimization
SAS® Fraud Management	SAS® Marketing Automation
SAS® Fraud Network Analysis	SAS® Marketing Optimization
SAS® Governance and Compliance Manager	SAS® Merchandise Allocation
SAS® Grid Manager for Hadoop	SAS® Merchandise Planning
SAS® Grid Manager for Platform Suite	SAS® Metadata Bridges
SAS® Health	SAS® Metadata Server
SAS® High-Performance Entity and Network Generation	SAS® Mobile Investigator
SAS® In-Database Technologies for Teradata	SAS® Model Implementation Platform
SAS® Information Delivery Portal	SAS® Model Manager
SAS® Information Map Studio	SAS® Model Risk Management
SAS® Information Catalog	SAS® Network Algorithms
SAS® Information Governance	SAS® Office Analytics
SAS® Infrastructure for Risk Management	SAS® OLAP Cube Studio
SAS® In-Memory Statistics for Hadoop	SAS® OLAP Monitor
SAS® Insurance Analytics Architecture	SAS® OLAP Server
SAS® Integration Technologies	SAS® Optimization
SAS® Intelligence and Investigation Management	SAS® Pack Optimization
SAS® Intelligent Decisioning	SAS® Personal Login Manager
SAS® Inventory Optimization Workbench	SAS® Production Quality Analytics
SAS® IT Resource Management	SAS® Promotion Optimization
SAS® IT Resource Management Adapter for	SAS® Qualitative Assessment Manager
SAP Server	SAS® Quality Analytic Suite Foundation
SAS® LASR Analytic Server	SAS® Quality Knowledge Base for
SAS® Life Science Analytics Framework	Customer Information

SAS® Quality Knowledge Base for Product Data

SAS® Talon

SAS® Real-Time Decision Manager

SAS® Text Analytics

SAS® Regular Price Optimization

SAS® Text Miner

SAS® Risk Analytics Builder

SAS® Text Miner for Desktop

SAS® Risk and Finance Workbench

SAS® Underwriting Risk Management for

SAS® Risk Dimensions®

P&C Insurance

SAS® Risk Engine

SAS® Visual Analytics

SAS® Risk Modeling Workbench

SAS® Visual Data Mining and Machine Learning

SAS® Risk Reporting Repository

SAS® Visual Data Science

SAS® Scalable Performance Data Engine

SAS® Visual Data Science Decisioning

SAS® Scalable Performance Data Server

SAS® Visual Forecasting

SAS® Scoring Accelerators

SAS® Visual Investigator

SAS® Simulation Studio

SAS® Visual Scenario Designer

SAS® Size Optimization

SAS® Visual Statistics

SAS® Size Profiling

SAS® Visual Text Analytics

SAS® Social Network Analysis

SAS® Viya®

SAS® Solution for CECL

SAS® Web Report Studio

SAS® Solution for IFRS 17

SAS® Web Report Viewer

SAS® Solution for IFRS 9

SAS® Workflow Manager

SAS® Solution for LDTI

SAS® Solution for Regulatory Capital

SAS® Solution for Solvency II

SAS® Solution for Stress Testing

SAS® Studio

SAS® Studio Analyst

SAS® Studio Engineer

### Release Information

The version of this paper is January 2022.

Unless otherwise indicated, this document relates only to SAS 9.4, SAS Viya, and the products that are available with SAS 9.4 and SAS Viya. It also relates to services from the date of this paper forward. Quality processes are continually evolving. Therefore, SAS reserves the right to modify the processes described in this document at any time. If you are using SAS 9.4 and SAS Viya and have questions about processes in those releases, send email to [qualitypaper@sas.com](mailto:qualitypaper@sas.com).

Learn more about SAS Solutions at [sas.com](https://sas.com).
