

SAS® Payment Options Program

Maximize your budget. Accelerate ROI.

What is the SAS® Payment Options Program?

This program provides different avenues to pay for solutions to help grow your business and reach your goals. Through the SAS Payment Options Program, we provide the payment flexibility that many customers need or want in order to meet their business requirements. Acquire the software your business needs now and pay for it in a manner that maximizes your ROI and better aligns the payment stream to the value.

How can we use this program?

Use the SAS Payment Options Program for essentially anything SAS offers:

- Software.
- Professional services.
- Training and education.
- Hosting.
- Results as a service.

Using the Payment Options Program allows you to combine all SAS offerings into a single customized payment stream.

What kind of payment options are available?

The possibilities are endless when it comes to the types of options and structures we can provide to qualifying customers. Below are some examples. If you have a unique situation, just ask.

- Deferred payments.
- Flat payments, ramped payments or somewhere in between.
- Annual, semiannual, quarterly, monthly payments, etc.

Requirements

Here are a few general requirements:

- At least 10 employees.
- In business for 2-3 years.
- At least \$10,000 in total spending.
- Subject to credit approval.

If you are concerned about not meeting one of the general requirements, ask your SAS representative to explore your options. We may still be able to help.
