# GETTING STARTED GUIDE:
Bring SAS® Certifications to Your Academic Institution

Help your students gain a competitive edge by offering **SAS certifications** on your campus. With more than 25 topics to choose from, gaining a career advantage is just one exam away.

Did you know that faculty can become SAS certified proctors and host SAS certification exam testing events on campus? Getting started is easy.

Email our certification team an email and we'll enroll you in the proctor training at no cost. We'll also take care of the logistics for the certification testing event, including providing instructions for students.

Upon completion of training, you will be given access to a resource site for proctors setting up exams.

Exams can also be taken online, at Pearson VUE testing centers and some local SAS offices. Email **certification@sas.com** to get started.

For individual exam attempts, students can request a US$75 exam discount code in **SAS Skill Builder for Students** and manage their exam scheduling with **SAS Certification Manager**.

FAQs

What discounts are available to students and faculty for SAS certification exams?
All exams for students and educators are discounted to US$75* per attempt. Further discounts may apply if an academic program qualifies for a **SAS Academic Specialization**.
SAS may run occasional promotional events with additional discounts.

How do students pay for their examination attempt?
There are two ways to pay: an invoice for the total cost of all exams sent to your institution, or individual students pay via Pearson VUE.

How do I set up an on-campus or virtual testing event for students?
Email **certification@sas.com** and a team member will work with you to set up a testing event and provide instructions.

Can students use their own computers, or does it have to take place in a computer lab?
Computer labs are recommended, but students may use their own computers to take the examination if needed.
