

# SAS® ACADEMY FOR DATA SCIENCE

Master in-demand data science skills and advance your career in a data-driven world

Almost 63% of organizations don't have enough employees with AI and machine learning skills, according to a study by Coleman Parkes Research. With a shortage of talent and an abundance of opportunity, there's never been a better time to launch or advance your data science career with the SAS Academy for Data Science.

## BUILD SKILLS ONE CREDENTIAL AT A TIME

Purchase credentials individually and take courses – at your own pace – to become a SAS Certified Data Scientist.

### Data Curation Professional

- 12 months of unlimited access.
- 4 online courses.
- 80 hours of cloud software access.
