

What is SANZOC?

It's an online community designed to foster collaboration, networking and thought leadership among the SAS Community in Australia and New Zealand.

It complements the local SAS user group meetings within the Australia and New Zealand region.

What's it about?

- Exchange information outside of the regular user group meetings, view user group content and to provide feedback to the committee throughout the year
- Share ideas with other SAS ANZ users and to provide feedback to SAS Institute
