Unigro - Mission

The brand contributes to making
the **lives of its customers more comfortable**
by facilitating access to
a large number of products and services,
offering **purchases on credit, granted responsibly**

Unigro – Mission Execution

Unigro - Facts

- Since 1948
- Structure:  <  < 
- Figures:
 - 220 employees
 - 8000 products
 - 205 000 active clients
 - 300 000 orders / year
 - 450 000 articles sold / year
 - 42 Mio EUR revenue / year
 - 40% of revenues online

Challenge

How to grow without accepting more risk?

Marketing vs Risk = two sides of the coin

Solution

Credit scoring!

A photograph of a soccer ball and the World Cup trophy on a green grass field. In the background, the tiered seating of a large stadium under a clear blue sky is visible.

“Batistuta gets most of his goals with the ball”

Ian St John

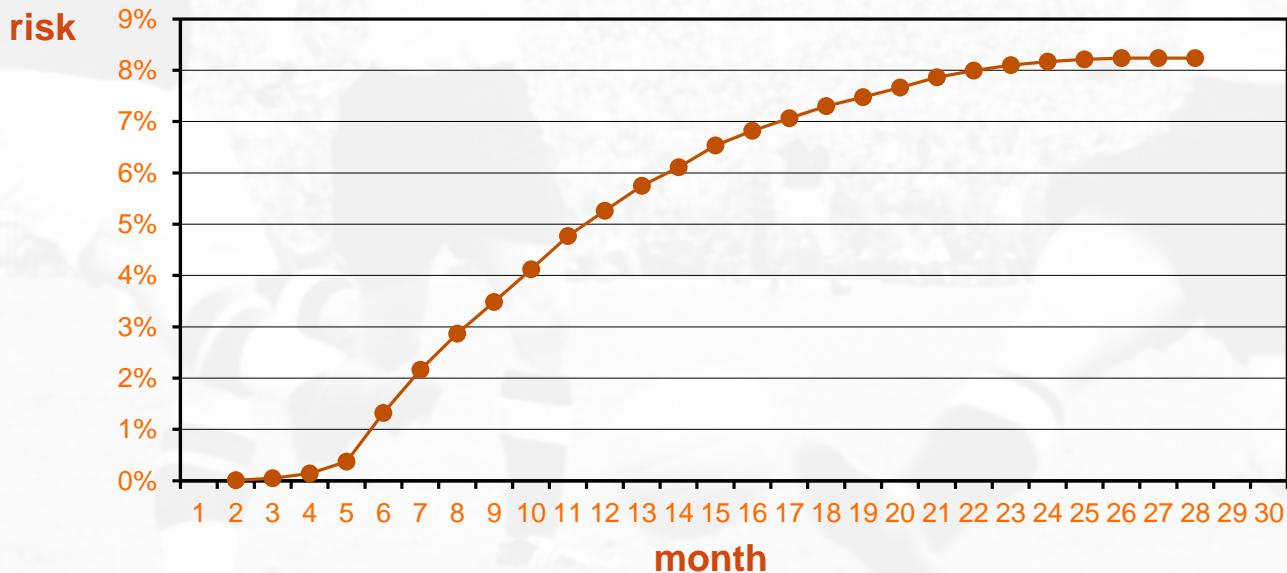

“The ball is an essential part of the game”

Johan Cruyff

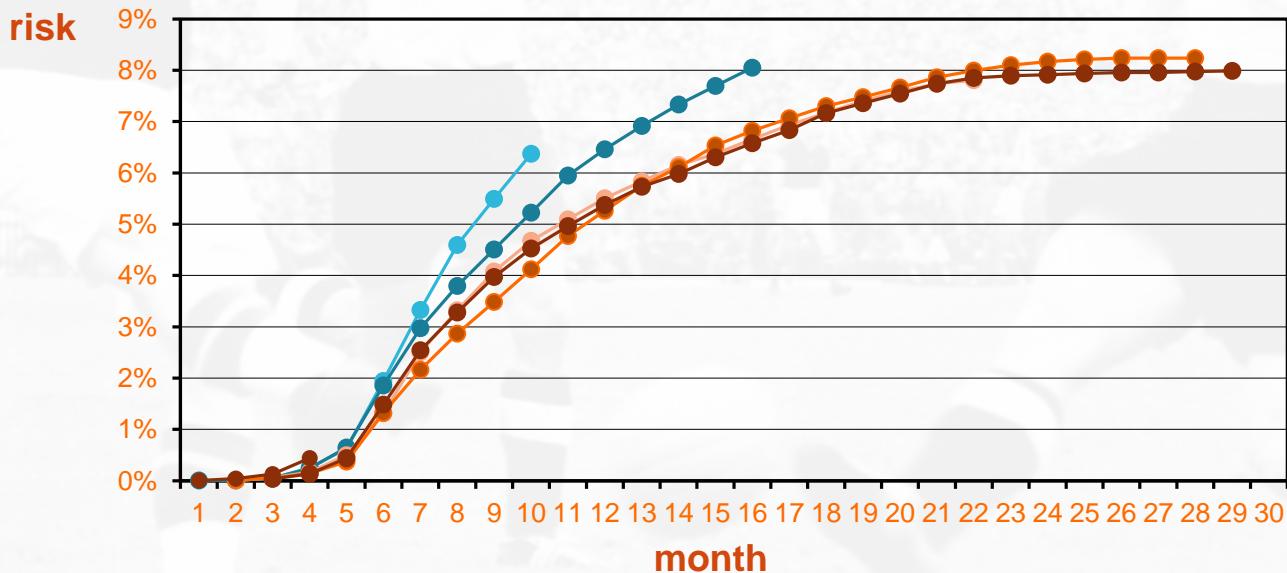

History

- Existing score performed by Cofidis (groupe 3SI)

History

Conclusions

- Discretize variables -> incidence
 - Interpretability
- Preference for Logit with FSR
 - Interpretability & performance
- Monitoring
 - Continuous evaluation
- Performance graphs
 - Alignment with business objectives

Results

Between 2006 and 2012:

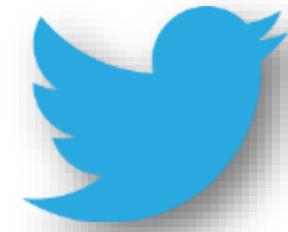

- Unigro's revenue increased with 25%
- Risk decreased with 0,9 percentage points
- Revenue on credit orders increased with 38%

Lessons: BRAZUCA vs credit scoring

- Performance is key but looks & story will sell
- Elaborate testing is crucial (internal & external)
- Focus on continuous improvements
- At some point we (will) need automation

3. <Question?>

- A. <Answer 1>
- B. <Answer 2>
- C. <Answer 3>

Your answer

Prizes to win:

1st prize: a ticket for Analytics 2015

2nd prize: a book of Prof Bart Baesens: "Analytics in a big data world"

3rd to 30th prize: chocolates with pepper

Winners will be contacted post-Forum !
