Curriculum Pathways®

Interactive, standards-based resources for all your students' learning needs

Engage. Enrich. Educate. Provided by SAS.

curriculumpathways.com

Interactive, standards-based resources in the core disciplines

We develop interactive resources that use technology to create learning environments that are otherwise difficult to achieve in the classroom. These resources are intended to supplement instruction to engage students in meaningful learning experiences that foster a deep, robust understanding of concepts.

Our most popular resources

Writing Reviser

Math Stretch

Read Aloud

CodeSnaps

crio™

Imagine, create and share lessons that inspire students' natural curiosity

Build lessons like never before with Crio™ – *for free!*

Not a programmer? No problem.
Create interactive, online resources that include audio, text, images or video using the easy, drag-and-drop editor.

Start from scratch or remix others' work.
Create an entirely new approach or remix and build on the best work of your peers, adapting it to the specific needs of your students.

Want to embed Google files in a Crio™ lesson? You can!
Simply load the files into Crio and then drag and drop into your lesson.

Provide instructional feedback.
Move beyond simple right or wrong responses to provide explanations, suggestions and encouragement in ways that stimulate curiosity and promote higher-order thinking.

Expand your reach.
Create engaging lessons that enable critical thinking and share lessons with your peers and students around the world by contributing to a repository of lessons.

Curriculum Pathways® partnerships

Curriculum Pathways resources integrate with the leading learning management systems and platforms.

For a complete list, visit **curriculumpathways.com/partners**.

Professional development on your schedule

We understand technology is not a magic bullet. Signing up for a Curriculum Pathways account is only a first step in a technology integration initiative. That's why we provide no-cost teacher-support features, including online and face-to-face professional development classes and courses. These courses are available at any time and are designed by educators based on proven pedagogical practices.

Earn renewal credit
Participants in our professional development courses can receive documentation from SAS that enables them to seek renewal credit (1.0 CEU).

We're passionate about education

Our commitment to education is a natural extension of where we came from and what we do. Education gives each generation the power to change what's possible. Around the world, SAS supports education initiatives that promote learning for all, with the goal of building a global community of innovators. Whether it be closing the analytics skills gap, encouraging interest in STEM or improving reading proficiency, we are passionate about enabling curious and capable people to transform the world.
