Measuring SUCCESS is a CHALLENGE

Every tree is DIFFERENT

Autonomous Orchards

- SENSORS and DATA ANALYTICS to OPTIMIZE orchards at the TREE LEVEL
- Helps LABOR SHORTAGES
- Uses BIODIVERSITY to treat HOTSPOTS, preserves BENEFICIAL insects
- Extensive VALIDATION programs to TRACK seasons
- AI pattern recognition to detect disease

Ethical Issues

Lawful use of SOCIAL MEDIA data

CYBERSECURITY

CRISIS can lead to INNOVATION

A safer world Starts with DEFENSE

Digital Conflicts

- Misinformation
- Telecom attacks
- Public infrastructure

Need training about OPEN SOURCE data
