THE POWER TO KNOW®

Be a Part of SAS® Analytics U

SAS Analytics U is designed for professors like you – and your students. By joining the SAS Analytics U community, you can easily access SAS software, find support on how to use SAS in your classes, and connect with other SAS users in academia.

Key Benefits

- Software for teaching, learning and academic research
- Online communities for professors and students
- Support materials for teaching, including sample data sets
- Opportunities to connect with SAS customers in academia, and more

3 Ways to Get SAS® Software

1. **SAS® Education Analytical Suite**. Licensed software for computers and computer labs on campus
2. **SAS® OnDemand for Academics**. Internet access to free software, including the latest version of SAS Studio
3. **SAS® University Edition software**. Free, downloadable software, including Base SAS, SAS/STAT®, SAS/IML®, SAS/ACCESS® Interface to PC Files and SAS Studio

Want to find out which option is best for you and learn more about SAS Analytics U? Visit sas.com/no/professors

More information from SAS

If you would like to get in touch with your peers in our SAS Community or learn more about SAS, please make use of a SAS Expert lecture in your classroom and/or join our SAS Training at the SAS Office in Oslo.
