The analytics economy

Q

Artificial Intelligence

Machine Learning

Deep Learning

Cognitive Computing

Our digital transformation to power the analytics economy

LASR

- Repeatedly run less complex algorithms
- Interactive use of data
- Multi-user
- Hadoop integration

SAS Viya™

- Solves use cases of HPA and LASR
- Allow processing in memory and on disk
- Deliver highly available, fault tolerant processing

SAS[®] Viya[™] Early adopter use cases

Customer Use Case

ORGANIZATION

Major telco provider trying to improve customer satisfaction, reduce the occurrence of failed orders

SUCCESS

Faster and better prediction of self install success/failure over open-source model

BENEFIT

New algorithms in SAS Viya out-performed an open source model in both speed and accuracy – reducing failed orders and improving customer experience

Customer Use Case

ORGANIZATION

Technology company using predictive modelling to assist football teams with player scouting

SUCCESS

Able to scale the training of deep learning models for image analysis and push them to production faster in real-time with single platform

BENEFIT

Continue using open source tools, skills while speeding up time-to-market

Customer Use Case

ORGANIZATION

International electronic communications manufacturer using predictive modelling to assess manufacturing defects

SUCCESS

Able to analyse parts in process from image analysis to correct production issues in-line in real-time

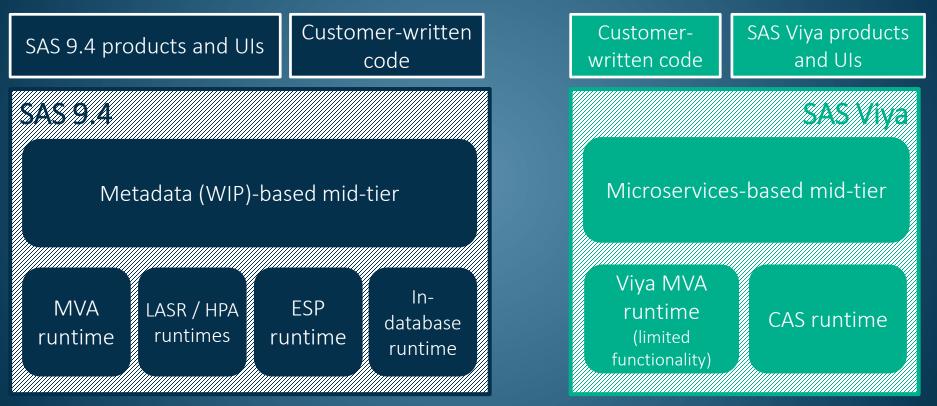

BENEFIT

Detect defects sooner, correct production, and reduce scrap costs

SAS[®] 9 and SAS[®] Viya[™] Roadmap

Information is subject to change.

H2 | 2017

<u>SAS 9.4 M5 (Q3)</u>

- SAS 9 & SAS Viya interoperability
- Product releases on 9.4 M5

SAS Viya 3.3 (Q4)

- Visual product family 8.2
- Programming products 8.2
- New offerings include:
 - Visual Text Analytics
 - Model Manager
 - Data Preparation
 - Data Quality
- Visual Investigator 10.3

H1 | 2018

Releases on SAS 9.4 M5

· Small set of solutions require re-release

Viya Deployment Releases

- SuSE Linux
- Cloud automation
- Cloud Foundry update
- Scripted deployment into AWS, Oracle Cloud

SAS Viya 3.4

- Integration, Stability, Performance, Modernization, Transition, and Automation
- New product releases
- Incremental product updates

H2 | 2018

<u>SAS 9.5</u>

- Advanced data types
- Hardened security
- 3rd party update

Releases on SAS Viya 3.4

- Updated product versions
- New offerings
