

An Introduction to SAS® Visual Analytics: How to Explore Numbers, Design Reports, and Gain Insight into Your Data. Full book available for purchase [here](#).

# contents

about this book.....	ix
about these authors.....	xiii
acknowledgements .....	xv
introduction .....	xvii
<b>part one: getting started .....</b>	<b>1</b>
<b>chapter one: accessing content.....</b>	<b>3</b>
Methods of accessing content .....	3
Accessing content with a web browser .....	3
Accessing content through the public portal .....	3
Accessing content with the mobile bi app.....	4
Understanding roles .....	4
Accessing SAS Visual Analytics.....	5
Transformation of the homepage .....	5
Understanding SAS home .....	7
Opening a report.....	7
Creating a shortcut .....	8
Creating a collection or content tile .....	9
Using the report viewer .....	11
Navigating a report.....	12
References.....	14
<b>chapter two: building your first report .....</b>	<b>15</b>
Accessing the designer .....	15
Introducing the designer layout .....	16
Building your first report .....	21
Adding a data source .....	22
Creating new data items.....	25
Populating your objects .....	27
Improving the data object appearance .....	28
Adding data to other objects.....	29
Working with data objects.....	31
Adding object interactions .....	33

Saving the report.....	35
Reviewing the report .....	36
References.....	36
<b>chapter three: building your first dashboard.....</b>	<b>37</b>
Dashboard building process.....	38
Understanding your customer .....	38
Establishing objectives .....	38
Tips for more useable dashboards.....	42
Building the dashboard .....	43
Adding the data objects.....	44
Creating the layout.....	52
Working with data objects.....	56
Linking to another section.....	65
Other dashboard enhancements.....	66
Adding text boxes.....	67
Adding artwork .....	67
Embedding a stored process .....	68
Summary .....	69
References.....	70
<b>chapter four: using the data builder .....</b>	<b>71</b>
Using the Data Builder.....	71
Creating a data query.....	72
Opening the Data Builder .....	73
Filtering the data.....	80
Create a summary data query .....	82
Updating the code .....	84
Scheduling a query.....	84
References.....	86
<b>part two: customizing your data visualizations .....</b>	<b>87</b>
<b>chapter five: visualizing your data .....</b>	<b>89</b>
Elements of an effective data visualization.....	89
Your message: know your point .....	89
Your audience: know who is listening.....	90
Your technique: follow the KISS principle .....	90
Line charts .....	91
Interpreting the results .....	91
Line charts: guidelines .....	91
Line charts: tips and tricks .....	95
Bar charts .....	98
Interpreting the results .....	99
Bar charts: guidelines .....	99
Bar charts: tips and tricks .....	101
Pie and donut charts.....	103
Interpreting the results .....	103

Pie and donut charts: guidelines .....	104
Pie and donut charts: tips and tricks.....	106
Treemaps .....	109
Interpreting the results .....	109
Treemaps: guidelines .....	110
Treemaps: tips and tricks .....	111
Waterfall charts .....	113
Interpreting the results .....	113
Waterfall charts: guidelines for use .....	114
Waterfall charts: tips and tricks .....	115
Gauges .....	118
Interpreting results.....	118
Gauges: Guidelines.....	119
Gauges: tips and tricks .....	120
Tip 1: Use display rules .....	120
Tip 2: Add a shared rule .....	121
Tables and cross tabs .....	122
Interpreting the results .....	122
Tables and crosstabs: guidelines for use .....	123
Tables and crosstabs: tips and tricks .....	124
Bubble plots.....	127
Interpreting the results .....	127
Bubble plots: guidelines.....	128
Bubble plots: tips and tricks.....	129
References.....	130
<b>chapter six: the where of data .....</b>	<b>131</b>
Using geospatial data effectively .....	131
When location is not part of the data story .....	131
When location is the data story .....	132
Preparing data for geospatial visualizations.....	133
Creating a predefined geographic data item.....	133
Creating a predefined geographic data item.....	134
Creating a custom geospatial data item.....	135
Creating a custom geographic data item .....	136
Displaying geospatial objects.....	137
Get to the point with geo coordinate data objects .....	138
Compare area with geo regional data objects .....	140
Show overall trends with bubble plots data objects .....	143
Expanding location intelligence .....	144
Understanding details about mapping technologies .....	145
References.....	146
<b>chapter seven: approachable analytics .....</b>	<b>147</b>
About the Explorer .....	147
Automatic chart feature .....	149

Box plots .....	150
Interpreting the results .....	150
Adding more data items.....	152
When to use box plots .....	154
Histograms .....	154
Changing objects in a visualization .....	154
Histogram options .....	155
Using a correlation matrix.....	156
Calculating a correlation.....	156
Understanding the matrix .....	157
Interpreting a correlation value.....	158
Forecasting .....	159
Working with the forecasting option .....	159
Using the scenario analysis.....	161
Word clouds.....	163
Loading social media data.....	163
Setting up the word cloud .....	164
Scatter plot .....	167
Data analysis .....	168
Adding categories .....	170
Heat map.....	171
Data analysis .....	171
Using a category.....	173
Other tips when using the Explorer .....	173
Include and exclude .....	173
Moving visualizations to the Designer .....	175
References.....	177
<b>part three: administration and data loading .....</b>	<b>179</b>
<b>chapter eight: loading data.....</b>	<b>181</b>
In-memory is different .....	181
It's about speed.....	181
Understanding the non-distributed deployment .....	182
Understanding the distributed deployment.....	182
Loading data to LASR from HDFS.....	183
Enabling support for SASHDAT files .....	184
The exception to the rule .....	185
SASHDAT does not require SAS/ACCESS.....	185
Loading data to LASR from Base SAS.....	186
Loading data to LASR with SAS In-Database technology .....	188
Loading data to LASR from a different LASR Analytic Server .....	189
Loading data into LASR automatically .....	190
SAS Autoload to LASR facility.....	190
LASR Reload-on-Start feature .....	191

References.....	192
<b>chapter nine: LASR administration .....</b>	<b>193</b>
Administration overview.....	193
Administration tools.....	193
SAS Management Console.....	194
SAS Visual Analytics Administrator .....	194
SAS Environment Manager.....	195
SAS Program Code .....	196
Other tools.....	197
Interesting LASR Administration Tasks.....	198
The role of SAS metadata.....	198
Defining new LASR Analytic Servers.....	198
Defining new LASR libraries.....	202
Managing LASR Analytic Servers with code .....	202
Working with the Autoloader Facility .....	205
Monitoring resources used by LASR.....	206
References.....	212
<b>chapter ten: performance considerations .....</b>	<b>213</b>
LASR performance.....	213
Non-Distributed LASR (SMP) .....	214
Distributed LASR (MPP).....	215
Load balancing by data distribution.....	215
High-volume access to smaller tables .....	216
Fast loading of data to distributed LASR Analytic Server .....	218
LASR and a remote data provider (asymmetric).....	219
LASR symmetrically co-located with HDFS .....	220
LASR co-located with dedicated HDFS and loading data from remote HDFS .....	220
References.....	221
<b>part four: SAS Visual Analytics 8.1 .....</b>	<b>223</b>
<b>chapter eleven: introducing the SAS Viya platform .....</b>	<b>225</b>
Overview of the SAS Viya platform .....	225
Understanding the CAS In-Memory Analytics Server .....	226
Introducing massively parallel analytics .....	226
Adding persistence.....	227
Providing more flexibility .....	227
SAS Viya and SAS 9.4 together.....	228
Managing the SAS Viya environment.....	228
Managing users and groups.....	229
Managing data .....	230
Managing content.....	231
References.....	232
<b>chapter twelve: wrangling your data.....</b>	<b>233</b>
Introducing a modern user interface.....	233

<b>New features</b> .....	<b>241</b>
<b>References</b> .....	<b>248</b>
<b>chapter thirteen: visualizing and exploring your data</b> .....	<b>249</b>
Introducing the new layout.....	249
Starting a new report .....	251
All-in-one application .....	256
Additional features .....	261
<b>References</b> .....	<b>263</b>
<b>index</b> .....	<b>265</b>
